## **NON-COMMUNITY HOSPITALS**

---

## **INTRODUCTION**

In addition to the 51 community hospitals in South Dakota, there were 17 non-community hospitals in 2004. Each hospital provided varying degrees of emergency, acute, intensive, skilled nursing or specialty care. All non-community hospitals have the capability of providing acute care, which differentiates them from nursing facilities, which do not have that capability.

## **RESOURCES**

### **Facilities**

Hospitals are categorized as non-community hospitals because of access requirements or the specialized nature of the care they provide. In 2004, South Dakota's 17 non-community hospitals were comprised of two Veteran's Administration hospitals, five Indian Health Services hospitals, and 10 specialized hospitals. Of these hospitals, the only hospitals licensed by the state are the 10 specialized hospitals.

***NOTE:** The number of non-community hospitals that submit their AHA Survey in any given year fluctuates greatly, making it difficult to track the trends in data related to non-community hospitals. Therefore, the data for non-reporting, non-community hospitals was extrapolated in 2000, 2001, 2002, 2003, and 2004 to allow the comparison of trends for non-community hospital resources and utilization statistics. The report notes the instances where the data is extrapolated by bolding the data and shading the area around it. In addition, a note is added below the table to indicate further that the data has been extrapolated.*

## NON-COMMUNITY HOSPITALS

### Beds

Table 17, below, displays the number of beds per facility for the years 2000 to 2004. From 2003 to 2004, the total non-community hospital beds in South Dakota increased by 29 beds or 3.5 percent. Table 18, page 23, compares the number of beds in South Dakota non-community hospitals and community hospitals. During the past five years, the percent of hospital beds that are housed in non-community hospitals has held steady around 22 percent.

**Table 17**  
**Beds Set Up and Staffed in South Dakota**  
**Non-community Hospitals 2000-2004**

NUMBER OF BEDS	2000	2001	2002	2003	2004

	847	811	842	825	854

NOTE: Dakota Plains Surgical Center in Aberdeen opened in 1998, but has not completed any survey to date.  
 Black Hills Surgery Center in Rapid City did not complete the 2004 AHA survey.  
 \*Spearfish Surgery Center opened in 2000 but has not completed any survey to date.  
 #Memorial Care Unit in Watertown closed in 2003.  
 Siouxland Surgery Center in Dakota Dunes did not complete the 2004 AHA survey.  
 PHS Indian Hospital in Pine Ridge did not complete the 2004 AHA survey.  
 Sioux Falls Surgical Center did not complete the 2004 AHA survey.  
 Lewis and Clark Specialty Hospital in Yankton did not complete the 2004 AHA survey.

NOTE: The areas in the above table that are shaded are non-reporting years for that facility. Therefore, in order to compare the number of beds over a five-year period, the numbers in the shaded area are averages of the data available on that facility.

## UTILIZATION

### General Trends

Table 19, below, tracks selected utilization statistics for the non-community hospitals from 2000 to 2004. Utilization showed an increase in beds set up and staffed and a decrease in discharges (see Appendix A for explanation of discharges) and an increase in inpatient days for 2004.

**Table 19**  
**Selected Statistics for South Dakota Non-community Hospitals, 2000-2004**

YEAR	BEDS SET UP AND STAFFED	DISCHARGES	PATIENT DAYS	AVERAGE LENGTH OF STAY
2000	847	30,237	175,556	5.81
2001	811	29,892	167,545	5.61
2002	842	20,133	148,839	7.39
2003	825	13,087	153,329	11.72
2004	854	12,505	159,795	12.78

NOTE: The shaded data in Table 19 are based on extrapolated data.

SOURCE: Department of Health; Office of Data, Statistics, and Vital Records.

### Discharges

Table 20, page 24, displays the non-community hospital discharges by facility. The five-year high during the period presented occurred in 2000. The substantial decrease in discharges in 2003 is due to clarification of reporting requirements. In 2004, there was a decrease in the number of discharges by 582 discharges or 4.4 percent. Table 21, page 24, shows total discharges for community hospitals and non-community hospitals.

## NON-COMMUNITY HOSPITALS

---

Table 23, below, displays inpatient days for South Dakota community and non-community hospitals. In addition, it displays the percent of inpatient days completed by non-community hospitals. The percentage of non-community hospital inpatient days over the last five years has fluctuated from a low of 23.4 percent in 2000 and 2002 to a high of 26.9 percent in 2002.

**Table 23**  
**Inpatient Days by South Dakota Community and Non-community Hospitals, 2000-2004**

Inpatient Days	2000	2001	2002	2003	2004
Community Hospital Inpatient Days	479,960	491,473	486,810	442,845	464,315
Non-community Hospital Inpatient Days	176,814	150,175	148,839	153,329	159,795
Total Inpatient Days	656,774	641,648	635,649	596,174	624,110
Non-community as a percent of Total	26.9%	23.4%	23.4%	25.7%	25.6%
